

Use this quick reference for instructions and step-by-step procedures to complete an **M-CORE Shower Valve Survey for SOD/FEI Locations** form.

References

The survey web tool includes instructions on requirements, deadlines and additional resources, including the 2019 Wholesale Merchandising Catalog.

Start Here

The M-CORE Shower Valve Survey for SOD/FEI Locations form requires a Moen SAP Customer Account Number and a Moen Rep Email.

A screenshot of a web form titled 'Location Info' with a 'Reset Form' link in the top right. There are three input fields: 'Moen Sap Customer Account Number (Required)', 'Customer Name', and 'Customer Email'. A hand cursor is pointing to the 'Moen Sap Customer Account Number' field.

Entering a Moen SAP Customer Account Number will auto-fill the Location Info, Moen Rep Info and assigned Planogram from our records. You can edit any information or click Reset Form at any time to begin again.

Planograms & Product Selection

Please confirm your assigned Showroom of Distinction tier and select the products in your showroom by clicking on the planogram image.

Planograms SKUs

You can also confirm products on your showroom wall by selecting the individual SKUs in the product listing.

The screenshot shows a 'Planogram SKUs' section with instructions: 'Select the desired SKUs from the lists below. All SKU selections default to a quantity of one (1) each. If you would like to specify additional EXISTING SKUs, please use the Product File Upload section below.' Below the instructions is a 'Select All SKUs' checkbox. Under the heading 'Deix', there are two product listings: 'T3283 Chrome Moentrol Tub/Shower' with a checked checkbox and a hand cursor icon, and 'T3297 Aigo Chrome Moentrol Tub/Shower' with an unchecked checkbox.

Product File Uploads

For any products on display in your showroom that are NOT reflected in the planogram, you can add by following the Product Line / Valve Type / Finish Product File Upload dialog that follows.

The screenshot shows a 'Valve Type' dialog with descriptive text: 'Mixing Valve (A): Post Temp or Moentrol Valve Trim (All Platforms: Valve Only, Shower Only, Tub Shower). This is the main water (on/off) control trim of the shower. Transfer Valve (B): This relates to any transfer valve trim, if this trim is paired with an individual Mixing Valve, please enter as a separate item. Moentrol with Transfer Valve (C): This relates to any stacked trim, that is the combination of Mixing and Transfer Valve that is integrated into one plate (see Moentrol with Transfer Valve Image)'. Below the text are three images labeled A, B, and C. Image A shows a mixing valve with its handle and separate trim pieces. Image B shows a transfer valve with its handle. Image C shows a Moentrol with Transfer Valve integrated into a single plate. A caption at the bottom reads: 'IMAGES REPRESENT VALVE CONFIGURATION ONLY. NOT FOR STYLE OR FINISH. PICTURED (L TO R): MIXING VALVE (FOR SHOWER, SHOWER ONLY, OR VALVE ONLY); TRANSFER VALVE; MOENTROL WITH TRANSFER VALVE (INTEGRATED)'.

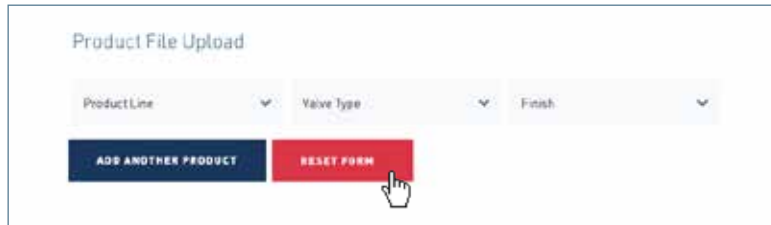

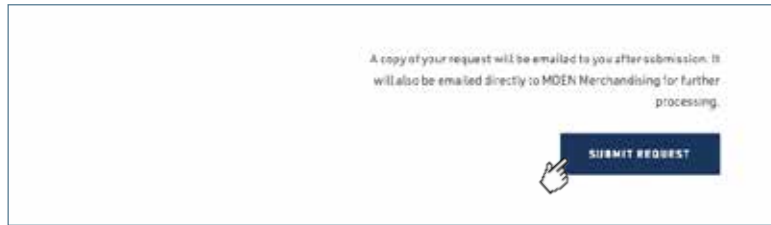

Reference the Valve Type definitions and valve configuration images to help you identify additional applicable products on your wall. Illustrations represent valve configuration only and are NOT for style or finish.

The screenshot shows a 'Product File Upload' dialog with three dropdown menus: 'Product Line', 'Valve Type', and 'Finish'. Below the dropdowns are two buttons: 'ADD ANOTHER PRODUCT' (dark blue) and 'RESET FORM' (red). A hand cursor is pointing at the 'ADD ANOTHER PRODUCT' button.

You can enter multiple products by clicking the "Add Another Product" button.

Submit Survey

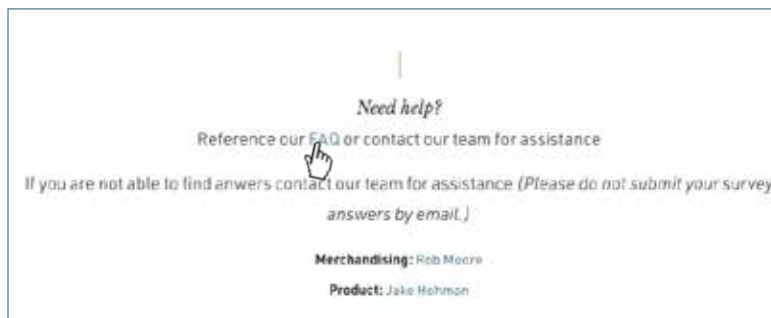

After verifying your entries, click the Submit Request button to send your survey for processing. An email confirmation will be sent to the Moen Rep Email Address listed in the Information section at the top of the survey sheet.

If you would like to enter another survey for another Moen SAP Customer Number, be sure to click the "Reset Form" button to start over.
